

Protect Your Company • Build a Strong Team • Measure Progress • Educate Your Staff

The package pricing options include membership dues and continue to provide significant discounts off regular program prices. They are based on the same logic as SBCA's dues calculating based on a small percentage of component sales.

A subscription is not required for SCORE certification. Members may continue to purchase programs individually and pay dues separately.

Simplified Certifications

- Centered on programs that matter most to CMs' customers.
- Streamlined certification requirements and quality focused.
- Simplified designations available: SCORE Certified or a SCORE Member working toward certification.
- Members who are working toward SCORE certification start reaping the benefit of their efforts immediately.

Two SCORE Designations are Available to Participants:

SCORE Member

The plant is a member in good standing and has a year to work toward SCORE certification, and has purchased one of the packages OR has purchased the following individually:

- Access to TTT for all truss designers.
- Access to SBCA's online QC program.
- Jobsite Packages, which are sent with every truss delivery.

SCORE Certified

The plant is a member in good standing and is compliant with all items below:

- **Continuing Education:** Plant fulfills ongoing TTT requirements, which can include SBCA workshops and webinars, BCMC, SBCA online training programs, and other SBCA-approved programs that provide value to CMs.
- **Jobsite Packages:** Plant purchases and sends with every truss delivery.
- **Plant Tour:** Plant hosts one plant tour or similar event per year.
- **QC Certification:** Plant is SBCA QC certified and continues to submit quarterly data files for SBCA review.
- **Safety Certification:** Plant meets safety program requirements, either with SBCA Operation Safety or a program reviewed and approved by SBCA staff.
- **TTT Certification:** Average TTT level for CM designers at a location must be 1.5 or higher.
