

A **SCORE** package gives you more bang for your buck: access to the most-used SBCA programs and products at a considerable discount. If you're purchasing TTT, In-Plant QC, or Jobsite Packages, consider a **SCORE** package instead – you'll add a few items to your order for little or no cost, and you'll send a strong message to your staff and your customers about your commitment to excellence.

"Like a lot of other plants, our management and employees feel we build some of the best trusses around. SCORE is a way for us to show our commitment to producing quality trusses day in and day out—raising the bar and separating ourselves from our competition, both in our employees' eyes and our customers'."

Jess Lohse, Rocky Mountain Truss

SCORE Packages:

- Certification Program: SBCA Membership, Truss Technician Training and In-Plant Wood Truss QC
- Best Practice Program: SBCA Membership, Truss Technician Training and re-certification, In-Plant Wood Truss QC, Operation Safety, In-Plant Basic Training, Truss Manufacturing Orientation, ORisk

Purchase a package and save! For details, email score-team@sbcindustry.com or call 608-274-4849.

With your purchase, you become a **SCORE** member. You have a year of discounts on a variety of SBCA publications and events, and you can immediately begin publicizing your membership in internal and external communications to promote your commitment to quality and build your company brand.

When you've successfully implemented the programs that are part of the package you purchase, and for as long as you remain in good standing with those programs, you're **SCORE** certified. Your discounts and program subscriptions continue, and you can set a new standard in your market for high-quality training, production, and product.
