MEMBERSHIP BRINGS US TOGETHER TO BUILD THE FUTURE

Be part of the association that will guide your industry to the next level of market growth and progress.

SBCA aims to promote the safe, economic, and structurally sound use of structural building components, thereby increasing their market penetration. By successfully implementing its policies and serving the needs of its membership, SBCA will have the potential to make a significant difference on behalf of the entire structural building components industry.

ADVOCACY AND DECISION-MAKING

Work collectively with your peers and participate in the decision-making that will help shape the future for your industry.

COMMUNICATION

Stay informed through *SBC Magazine* (published nine times per year) and the weekly *SBC Industry News* email.

MAKING CONNECTIONS IN THE COMMUNITY

Join our industry in supporting Operation Finally Home and accomplishing something worthwhile for the benefit of deserving wounded veterans. SBCA's BCMC Build and Framing the American Dream projects allow our industry to leave a legacy of improving the community in each BCMC host city. Volunteer alongside other SBCA members who work collaboratively each year prior to BCMC, in the show's host city to build homes for wounded veterans.

EDUCATION AND TRAINING

Information sharing at SBCA is available through educational workshops and presentations, certifications and training programs, all aimed to help members protect and grow the market.

BCMC

Attend the Building Component Manufacturers Conference (BCMC). Since 1980, BCMC has been the trusted venue for structural building component manufacturers to learn about the latest industry ideas, products and trends throughout their entire supply chain.

INNOVATION

Stay abreast of industry advances and benefit from industry peers across the nation. Learn from the SBC Research Institute, the industry's state-of-the-art, ANSI ACLASS ISO 17025 accredited testing facility, owned and operated by SBCA. Through single-element and in-situ testing, SBCRI provides "value addition through innovation."

PRODUCTS AND SERVICES

Today, there are more than 100 products offered through the SBCA Products and Program Catalog. Invest in knowledge and buy the products and services offered by SBCA such as technical publications and jobsite packages. Taking advantage of member pricing on SBCA products and services can pay for your dues.

MEMBERSHIP CONNECTION

Connect with the only trade association representing the structural building components industry. Membership can help establish relationships and connect with your peers through participation in local chapter meetings. In addition, Open Quarterly Meetings, Component Manufacturer Roundtables, workshops and online webinars provide opportunities for members to interact with each other nationally and discuss latest trends in the industry. The more members participate, the more value they get from their membership.

WORKFORCE DEVELOPMENT

Connect to the Career Center and be an active part of the industry to help recruit and train the next generation of this growing workforce community.
